*The living room for every quirky Bredanaar in the heart of Breda with an energetic mix of creativity and entrepreneurship. A store with unique products and a fair cup of coffee, tea or a tasty sandwich. The ideal place to meet, work or be inspired. Because of all the different things that happen at Brandpunt, a mix of creativity is created!*

### **WE ARE YOUR COFFEEPOINT.**

When you enter, the first thing you see is a pair of retro tables from the 50s with a modern twist. Drop down and order a cup of pleur (black coffee) served in our Jail House Cups. Allow yourself to relax. Order a fresh juice with a tosti and read the newspaper, the Volkskrant is our favorite paper. Do you have company sitting opposite you, but do you hate silences? Browse through our menu, we have a few good conversation partners for you ..

### **WE ARE YOUR GIFTPOINT.**

At Brandpunt there are only products with a story. This can be social or ecological but also products that simply have a wonderful personal story. Whatever you are looking for, Brandpunt is the store for unique and creative products and gifts. From design to gadgets, from art to laser cutting in our own workshop.

### **WE ARE YOUR LASERPOINT.**

Several times a week, the smell of the laser lab moves towards the rest of the store. A scent that reminds you of craftsmanship. You can make all your ideas come true in the laser lab of Creative Use of Technology. Do you have an idea? Ask about the possibilities with the Creative Use of Technology team.

### **WE ARE YOUR MEETINGPOINT.**

Exposure in a beautiful place in the center of Breda. Art, meetings, workshops, exhibitions and events; accessible to everyone. With our old cinema room in the back right, we are flexible for all kinds of activities. The space can be rented on request and is very suitable for meetings or brainstorming sessions!

## WARM DRINKS

*Our coffee is from the Moyee brand; fair, sustainable and FairChain. "With FairChain we are trying to restore the coffee chain. Our goal is to have a 50/50 balance between coffee producers and coffee drinkers. Quite a hardcore ambition, but we are already well on the way." The blend is 100% Limu: an Arabica bean from the Beleta forest in Ethiopia, mildly roasted. We also have decafé coffee.*

## MEET THE TEAM

*Put a group of crazy people together who like a good cup of coffee and a nice conversation and you have a top team! One team member is not the other, some of us you will see more in the foreground, some more in the background. But hey, someone has to keep that engine running! We love our silent powers. The one his love lies in lasering, the other in making a cappuccino. We have one thing in common; we like a good conversation. We regularly ask each other the questions below. Have a go!*

You have dinner with a clone of yourself, would you have fun?

If you were the president of the Netherlands, what would you change?

What would you do if you could change gender for a day?

What is at the top of your bucket list?

I'm calling you, it's 3:00 AM and I'm asking you to help me hide a corpse. What are you going to do?

If you have the opportunity to talk to animals, what would you ask?

Who is the most admirable person ever and why?

If you could read people's thoughts, what would surprise you the most?

What do you like best about yourself?

Give the person opposite you a compliment.

If your life were to be filmed, which event will definitely come back?

If you had super power, what super power would you want?

You can bring an artist to life, who would this be and why this person?

Time travel to the past or to the future? Why?
